Tony Nguyen

Full Stack Developer

(404) 916-2196 | nguyntony@gmail.com

github.com/nguyntony | linkedin.com/in/nguyntony/ | personal website URL

Passionate full stack developer with the ability to learn new languages and technologies as needed. Before, I graduated from Georgia State University with a Public Relations degree then pursued an education in software engineering. Focus on how you're prepared to do a job. What skills do I have that I can be successful for this position. How previous experience may be applicable to desired position (How me being a server will make me a good candidate, this is a summary)

Software Development Skills

HTML | CSS | JavaScript | Python | Node.js | React | Express.js | Sequelize | PostgreSQL | Debugging | Sass | RESTful API | Redux | AWS | React Native
